

**Stakeholder Bulletin issued by the Low Carbon Contracts Company**

**9 August 2017**

**Dear Stakeholder,**

Welcome to the latest Stakeholder Bulletin from Low Carbon Contracts Company (LCCC) containing information for CFD generators and applicants to CFD Allocation Round 2 (AR2).

**This bulletin covers:**

- **Proposed contract changes for current CFD Generators and successful AR2 applicants**
- **Facility Description Template and Milestone Requirement Guidance**

**Proposed contract changes for current CFD Generators and successful AR2 applicants**

An open letter has been posted on LCCC's website [here](#) communicating our assessment of the need for changes to current CFDs as well as the AR2 Standard Terms and Conditions in relation to Transmission Loss Multipliers (TLM) and Indirect Land Use Changes (ILUC).

**Facility Description Template and Milestone Requirement Guidance**

- An updated Facility Description template that will need to be completed by Counterparties entering into a CFD as part of the Initial Conditions Precedent (ICP) can be found [here](#). This template incorporates a number of updates to address matters such as storage.
- Updated Guidance on the Milestone Requirement obligations that all Generators have to satisfy with 12 months of signing the CFD can be found [here](#).

If you have any queries, please contact us at [info@lowcarboncontracts.uk](mailto:info@lowcarboncontracts.uk).

Kind Regards,

**Low Carbon Contracts Company**
